

Step-by-Step to Your Excellent Hearing

START POINT

QUALITY AUDIOGRAM

Start with an exam by a **Doctor of Audiology** - high quality evaluation including otoscopic check, outer ear canal check, plus middle ear and inner ear testing. *May include tinnitus and retrocochlear evaluation.*

SELECTION OF DEVICE

Hearing aids from various manufacturers are considered for a perfect fit. **HearBright has no hidden contracts or obligations to hearing aid manufacturers.**

Consultation includes assessment of your life-style and hearing needs.

HearBorrow™ Program available to test out aids.

MEDICAL COMMUNITY
Work with a physician for any medical condition that needs treatment or evaluation. *Following medical evaluations and treatments as necessary, hearing aids or hearing enhancement can be considered.*

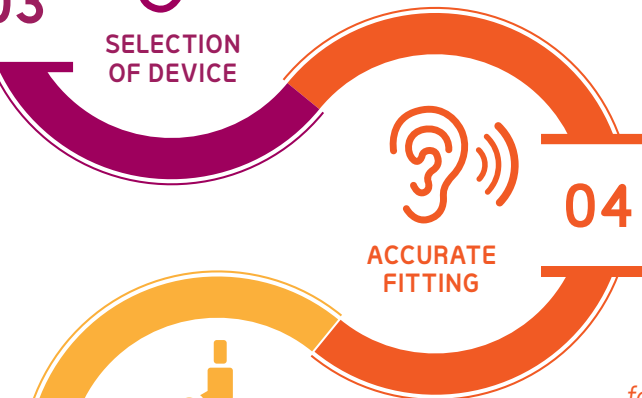

REPAIR LAB TWICE A YEAR

Specialized equipment for deep cleaning of aids. Complimentary replacement of parts such as domes and speakers to keep your hearing aids working like new.

Sound check and inspection of device.

Walk-in for needed care of device, and online chat for quick questions.

HearKeep Program™ - lifetime free repairs and maintenance in the HearBright repair lab.

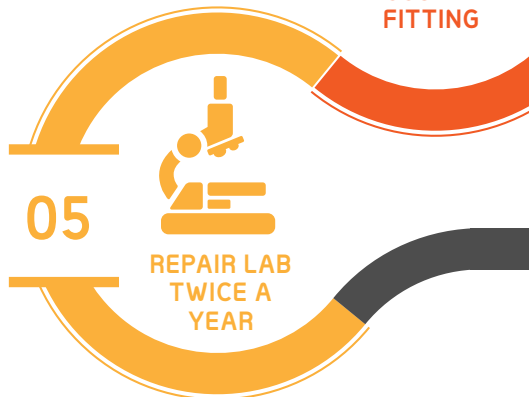

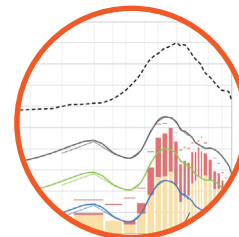

ACCURATE FITTING

Real Ear Measurements ensure precise adjustments.

Hearing aid workshop to learn how to use hearing aids.

HearListen™ Program for step-by-step precise adjustments and practicing to hear conversations.
